EDUCATION

MSc Methodology and Statistics

2019 - 2022

Utrecht University, Netherlands

Cum laude (GPA 8.9/10)

• Thesis: Combining support for hypotheses over heterogeneous studies with Bayesian Evidence Synthesis: A simulation study (supervised by Prof. Dr. Irene Klugkist).

MSc Sociology and Social Research

2019 - 2022

Utrecht University, Netherlands

Cum laude (GPA 8.7/10)

• Thesis: The future is made today: Concerns for reputation foster trust and cooperation (supervised by Prof. Dr. Ir. Vincent Buskens & Prof. Dr. Werner Raub).

BA Liberal Arts & Sciences

2016 - 2019

Utrecht University, Netherlands

o Major in Pedagogical Sciences; minor in Sociology and Social Research

EXPERIENCE

PhD candidate Synthetic data

2020 - Current

Utrecht University

- o Supervisor: Dr. Erik-Jan van Kesteren
- I investigate how to optimize the creation of synthetic data in terms of the risk-utility trade-off.

Internship MICE Group

2020 - 2022

Utrecht University

• With Dr. Gerko Vink I established a framework on how to generate synthetic data with the R-package mice to preserve privacy and confidentiality.

Research Assistant 2019 - 2022

Utrecht University

- For Dr. Peter Lugtig, I worked on research and teaching related topics, (e.g., creating content for the research master level course 'Survey Data Analysis', by developing a Shiny App, creating data visualizations and creating the webpage https://www.peterlugtig.com.
- o For Dr. Rebecca Kuiper, I created data visualizations and assisted PhD students by revising text.

Teaching assistant 2018 - 2022

Utrecht University

- $\circ\,$ Thesis co-supervision:
 - Multiply imputed synthetic datasets assessing validity of multiply imputed synthetic datasets with the R-package mice (Master's thesis, with Dr. Gerko Vink).
 - Comparing multiple methods of research synthesis (Bachelor's thesis, with Prof. Dr. Irene Klugkist).
- o Post-graduate level courses:
 - Multiple Imputation in Practice (MIMP; Utrecht Summer School 2019-2021) supervision of practicals and providing R assistance.
 - Statistical Programming with R (Utrecht Summer School 2021) supervision of practicals.
 - Advanced Survey Design supervision of practicals.
- o Master's level courses:
 - Network Analysis (2020-2021) developing practical assignments and supervising the practicals.
 - Methodological and Statistical Aspects of Social Science Research teaching working groups of about 20 persons on topics ranging from multiple regression to moderation and mediation analysis.
- o Bachelor's level courses:

- Theory Construction and Statistical Modeling teaching practicals on structural equation modeling using lavaan.
- Various undergraduate courses on standard statistical methods.

ASReview 2021

Utrecht University

• Researcher at ASReview - an open-source project that helps researchers to screen (tens of) thousands of papers automatically for inclusion in systematic reviews, meta-analyses, medical guidelines, or overviews.

Other

Debuut 2019 - 2020

Utrecht University

• Buddy programme at Utrecht University to match potential first generation university student with actual students to get a flavour of what studying at a university entails.

Statistical software proficiency

- o R
- o MPlus
- o SPSS
- o HLM
- o JAGS
- o Learning python
- ∘ Learning C++

Publications

Volker, T. B., & Vink, G. (2021). Anonymiced shareable data: Using mice to create and analyze multiply imputed synthetic datasets. *Psych*, 3(4), 703–716. doi: 10.3390/psych3040045

Software Vignettes

Volker, T. B. & Vink, G. (2022). futuremice: The future starts today. https://www.gerkovink.com/futuremice/Vignette_futuremice.html

Software development

- mice [ctb] Developed functionality to pool inferences from synthetic data and implemented futuremice to speed up imputation by using user-friendly parallel processing.
- o ggmice [ctb] Adjusted functionality to allow for visualization of synthetic data.
